

*Kingswood Legionnaires***Got Your Number!**

Hi Everyone and welcome to the K&H RBL AC Newsletter for September. Three months of the season gone already and we're just getting into the swing of things, however that 20lb weight from Woolverton is still up for grabs. Any club member who manages to top the magical twenty this season will receive a pint of their favourite ale (or maggots) courtesy of our beloved leader and secretary, Brian Lloyd. (He doesn't know about this yet). Right! In this month's offering you will see a list of all members' mobile phone numbers. Please put these in your phone so if you ever get lost en route to a gig, or if you're just feeling a bit lonely and fed up, you can call someone for a little chat. You'll be able to text each other and send photos and horse racing tips and keep up to date with what's happening within the Whitchurch mafiosa etc. But... no calls after midnight please and no heavy breathers... unless you genuinely do have a heavy cold. What a friendly club we are!

Match Results**River Frome, Woolverton, 19th June 2011**

Our first match of the season was held at Woolverton as usual and as usual weights were a little disappointing. Despite the river looking in near perfect condition, the fish turned off early, packed up and went somewhere, leaving us all scratching around for bites. Top of the pile on the day was Bob Hole who managed to tempt the "creature from the black lagoon", otherwise known as the eel from the weir pool and finished up with just 3lb-13oz. In the bridesmaid's position was "sticky" Micky Stowford, who probably knows that position very well, with 2lb-8.5oz. I managed to grab the last morsel of cash for my pitiful 2lb-5oz mixed bag of mostly baby roach.

River Avon, Seagry, 17th July 2011

It was a wet and windy one on this slow and deepish stretch of water, controlled by Golden Valley AC, which contains some large tench, some bream and a few other members of the piscatorial fraternity, but you wouldn't think it after this little dabble. There was virtually no movement on the water, which was also very clear and quite weedy in places, and so you really needed to draw a swim where the fish were having a get together, to be in with a chance. As it happens, Rich "Hippy" Whitmarsh drew the peg where the congregation was taking place and whipped out 9lb-12oz of the little critters. His manly bed fellow Mick Stowford crept up the rear and tipped 5lb-6oz into the weigh net for that bridesmaid's position again, gingerly followed by Alan Maggs with 4lb-12oz, even though the wheat ears didn't work their magic. Same again next year? Okay!

Whitehouse Farm, August 7th 2011

The legion finished in second place with a total of 43lb-10oz to Alcove's 75lb-6oz in this President's Invitation Inter-Club match fished on both lakes at Whitehouse Farm. The winning weight fell to Alcove's Derek Williams who finished with 17lb-9oz. My 16lb-12oz was good enough for second place and included a 12lb plus carp.

River Kenn, Clevedon, 14th August 2011

This was Eddie's "birthday bash" and he almost didn't make it. It was a good job he did though because he came second and picked up a nice little wedge for his birthday. Eddie drew opposite the reed beds on the later pegs and connected with some serious bream to around 7 pounds in his

20lb-5oz total. Most of us were left in shock after the gruelling, windy 6 hour stint produced a string of paltry weights hardly worthy of a mention, apart from 2 super bream each weighing 6lb-13 oz and falling to Bill Croom and Clive Purshouse respectively. Clive picked up a 6th place payout for his efforts. Same again next year? NO!

Mobile Telephone Numbers

Other News

- Congratulations to Johnny Mack on the birth of his new baby. (Sorry I don't know if it was a boy or a girl).
- Get well soon Margaret Lloyd. (Had operation on hip).

All for now!
